Software Skills: JavaScript, Python, HTML, CSS, React.js, React Bootstrap, GitHub, VS Code, Command Line/ Powershell, APIs, MongoDB, QuickBooks Online, Microsoft CRM.

Languages: French: CEFR ~A2, Spanish: CEFR ~A1.

DEVELOPER PROJECTS

BLOG API

May 2024 - Present

A server-side application using Express and Node for user registration, custom error handlers, and blog posts. Ensure users can create, read, update, and delete (CRUD) profile information, blog posts, and comments. Utilize MongoDB as a database with category management.

NOUN - A MERN STACK BLOG SITE USING TAILWIND CSS

May 2024 - Present

Client-side blog site using Tailwind CSS and the MERN stack (MongoDB, Express.js, React.js, and Node.js). Created a responsive website for desktop, tablets, and mobile using custom React components.

PORTFOLIO API

Mar 2024 - April 2024

Connected MongoDB to the frontend of the project using Mongoose. All CRUD routes were created, limited authorization was created to restrict use for only retrieval and posting peer reviews. React context and React reducer were used to update state for new posts.

PORTFOLIO - MERN STACK STATIC SITE ON GITHUB PAGES

Jan 2024 - May 2024

Created a static portfolio on GitHub Pages, using the MERN stack. Utilized JavaScript (ES6) for custom functions. Incorporated Google Fonts, Fonts Awesome, React Icons, Spline, React PDF Viewer, and React Bootstrap.

PROFESSIONAL EXPERIENCE

REBUILDING TOGETHER HARTFORD, OPERATIONS MANAGER

May 2023 - Present

Work with the City of Hartford's various departments to aid local low-income homeowners in accessing critical home repairs. Maintain the website, utilize databases, and implement new technologies. Plan and manage fundraisers and events, including National Rebuild Day, where over 300 volunteers come on a single day to repair 14 homes in a neighborhood. HR functions, including payroll, vendor payments, financial audit, tax management, and compliance. Provide regular updates to board members, committees, executives, program participants, and donors. Oversee the work of executives, staff, office needs, and daily operations.

EDUCATION

Massachusetts Institute of Technology, 32-week full stack development, Emeritus audit

University of Connecticut, Bachelor of Arts (BA), Political Science

Norwalk Community College, Associate of Arts (AA), Media Studies
